and what have you by BOB CRAIG

For those who paid their Poll Tax there is the possibility of April 4 being an even bigger election day than previously thought if State Representative Wesley Roberts of Seminole is able to get a bill passed that he has introduced. The bill would permit the voters of Texas to decide which of the three types of broad-based tax plans they favor.

The three tax plans the bill would present to the voters are a payroll tax, in income tax or a sales tax.

Roberts said he anticipated no opposition to his proposal. "I can't imagine anyone opposing a plan to let the people express their opinion," he said. And he is probably right in that it would certainly take the pressure off of the legislators.

The election would be held the same time the people will be voting on their city officials and a new State Senator to replace Lyndon Johnson.

With the low poll tax payments across the state it may not represent the true feelings of the people but if they didn't bother to buy a poll tax they don't have a right to decide the fate of the tax plan.

The membership committee of the BCD plans to finish up their drive to secure new business memberships this week and then start a drive to sign up their regular members for another year and work on new individual memberships.

The fate of the BCD is in the hands of the people of Hamlin since the organization needs a 50 per cent increase in dues over last year to continue its operations for the current year. The fate of the BCD will in large measure determine the fate of Hamlin in the coming years. With the pressure of the big cities on the smaller towns of the nation it has become imperative that the citizens of the towns like Hamlin must band together for a common goal. The towns that work together will have the opportunity to grow, but the towns that depend on individual efforts will find the future bleak.

If you have not been contacted in regards to a membership in the BCD and feel that you want a part in the future of Hamlin drop by the managers office and sign up or see any of the directors of the group. For only a dollar a month an individual can know that he is protecting his future here.

Some plan needs to be formulated in increase the attendance of Hamlin citizens at the area Chamber of Commerce banquets. Five from here attended the Haskell banquet Monday night while Stamford was represented by 30 or 40. Most of the trouble seems to be a lack of interest and some of it is the failure to let enough people know ahead of time when the meetings are to be held.

Hamlin will never be an area shopping center until the people of Hamlin take an interest in the affairs of people in the area. Attending the banquets and learning what the other towns are doing (both right and wrong) is one of the best ways to keep Hamlin in the minds of the people of this area and to improve our city.

Some service club in area was probably without a program Tuesday noon since a representative of the West Texas Rehabilitation Center in Abilene was out at the Lions meeting to give the program. In checking around it seems no one knew anything about it and it is assumed that he was probably supposed to show the film somewhere else. The scheduled program was postponed until next week and the Lions were given the misplaced program.

Mrs. Westmoreland is chairman of the Friday night drive. Helping her with the plans are Mrs. Young, president of the P-TA, and Max Murrell, Hamlin General chairman of the March of Dimes.

Mothers to March Friday Night at 7

The Mother's Porch Light March, sponsored by the Parent-Teachers Association, for the March of Dimes will begin at 7:00 p.m. and close about 8:00 p.m. Friday, according to Mrs. Gene Westmoreland, chairman of the Public Affairs Committee of the P-TA.

Serving on the committee with Mrs. Westmoreland in making plans for the Mother's March are Mrs. Don Gregory and Mrs. Bobby Crowley.

Other organizations that have been asked to send representatives to assist the P-TA women with the drive are the Fifty-Two Study Club, Women's Literary Club, Fireman's

Auxiliary, Friendship Home Demonstration Club, Good Neighbor Home Demonstration Club, Hamlin Garden Club, Business and Professional Woman's Club and the Beta Theta and Xi Gamma Pi Sororities.

The fire whistle will blow at 7:00 p.m. as a reminder for the residents wishing to contribute, to turn on their porch lights. Also notes will be sent to the homes by the school children to notify the parents of the drive.

All workers are asked to meet in the primary cafeteria

at 6:30 p.m. They will receive instructions and material to equip them for the march.

Due to the bad weather last Saturday the Scouts were unable to conduct their blockades of the downtown intersections. However, they will have their blockades this Saturday, weather permitting.

Max Murrell, chairman of the Hamlin drive, said the contributions are coming in nicely. Members of the Lions Club and Rotary Club have canvassed the business section of town.

The March of Dimes Drive will end Saturday with the Scout Blockade.

The program will be sponsored by the Bible and sociology departments of the university.

About 65 West Central Texas pastors are expected to attend.

Crop Outlook Good After Wet January

Crop conditions are very good following the heavy moisture received during the month of January with the bulk of it coming during the past week as this area was covered with snow and ice for several days. In spite of the bad weather only two minor accidents were reported during the spell.

Records at the city pump station show the total amount

of moisture received during this month was 1.90 inches as compared with 1.26 in January of 1960. Most of this moisture came in the form of sleet and snow during the past week

with .98 on Tuesday; .02 on Wednesday and .10 Saturday. Temperatures recorded at the Santa Fe Office show freezing and below temperatures almost every night during the

month. For the most part of last week temperatures were in the middle twenties during the day with the lowest of 12 degrees recorded early Sunday morning.

Although there have been more traffic accidents during January than any other month since May, only two minor accidents were reported during the hazardous road conditions last week.

Chief of Police, McCurdy, stated that he was very proud of the citizens of Hamlin for their safe driving during the bad weather. He said our record is exceptionally good compared with that of some of our neighboring towns.

Crop conditions are very good and there are prospects for an abundant harvest. All of the farmers are optimistic at this time according to Fred B. Moore Jr., of the Pied Piper Elevators.

Mr. Sparks Buys Cook-Walker Drug Store

February 4, 1921

One of the surprises of the week is the sale of the Cook-Walker Drug store. Mr. Sparks of Stamford is the purchaser. He has purchased a good business and is showing excellent judgment in coming to this good little city.

About two o'clock Friday morning the Hunt gin at Longworth was completely destroyed by fire. When the fire was first discovered it had already reached the stage beyond control. The cause of the fire is not known but it is supposed it had origin in the last bale of cotton that was ginned late Thursday.

It came to the Editor's ears that Mayor Bledsoe has arranged for a number of extra peace officers to assist the regular ones in the enforcing of law and order in our city. Not that there has been anything done here worse than elsewhere, but that our good record be maintained. When we approached the Mayor on the

subject he was mum as a clam. All we could get out of him was an ugly side glance from his big white eyes and a clench of that big jaw. He said he is taking care of the situation with some of the best and tried men of the town. He gave us to understand that there will be no monkey fuddling with him in handling the fellows who are bent in the crime wave throughout the county. Bledsoe has been planning and there is something about his look that tells us the game is all over with the chap who persists in pulling off that ruff stuff around here. What we did not learn for sure was a plenty. But we did learn that the Mayor is firmly of the opinion that there are some things going on in these diggings that had better be stopped before his "Bull Dogs" make a nabbing. We couldn't find out who the "Bull Dogs" were or how many, only that they were out with out chains or collar.

Mary Scott and J. M. Alexander Wed

February 7, 1936

Saturday night Rev. Henry Littleton answered a telephone call requesting him to remain up late for the purpose of marrying a couple. He promised. And after hours and hours, in fact after the midnight show, Mr. J. M. Alexander and Miss Mary Scott appeared at his door, and in the Baptist pastor's usual happy manner, he spoke the words that united the couple in wedlock.

Mrs. Alexander is a daughter of Mr. and Mrs. C. D. Scott, who reside just south of Hamlin and a very charming young woman. Mr. Alexander is a son of Mr. and Mrs. Alexander of the Neinda community. Both of these young people were reared in this section of the county and they are favorites with all who know them. The date of their marriage was really Sunday, February 2, 1936.

A shower was given at the home of Mrs. L. Fielder in honor of Mr. and Mrs. Ben Bingham. Amid the many presents received by the recently wedded couple were two alarm clocks and three teakettles. We can picture Mrs. Bingham doing her daily housework—winding clocks and boiling water.

STATE CAPITAL

Highlights

AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

AUSTIN, Tex.—A proposal that would take the monkey off the backs of the legislators who campaigned on a no-sales-tax, no-income-tax platform has been made by one of the State Capitol correspondents.

It is the feeling of many persons in Austin as well as over the state that the public is ready for a definite, long-time tax program, whether it be a sales tax, an income tax or the Governor's proposed payroll tax.

They are convinced that the state has to take some drastic financing steps. And they are ready to foot the bill. Many legislators realize this fact.

Trouble is that a goodly number of them campaigned on a no-sales-tax, no-income-tax platform. Many legislators felt at the time that such was a popular campaign theme; that the public did not want either type of tax; that their resentment to either would be bitter. It is the opinion of a number of the legislators that the people are far ahead of the lawmakers in this type of thinking; that they understand the problem better than the legislators realize; and they are

willing to face the facts.

But the legislators as a whole are hesitant. They are not sure the people are ready. They are fearful that they will get all the blame.

Richard Morehead of the Austin bureau of the Dallas News suggests that legislators feel the public pulse by ordering a referendum on the April 4 ballot. Voters will be going to the polls anyway to vote for a new U. S. Senator.

Morehead's proposed referendum would point out the state's need for at least \$100,000,000 a year in new revenue. Each voter would be asked to check which of the three tax proposals he preferred. . . a payroll tax to be paid equally by employer and employee, a general sales tax, or an income tax.

Such a referendum would give the voters a voice in the tax program. . . an opportunity to express their own preference in the matter. And at the same time it would lift the problem off the shoulders of the legislators.

As Morehead points out, there are other ways to raise money but informed people generally agree that some variation or combination of the three methods outlined herein is going to be passed by the legislature. And by April 4 the voters will have heard many sides of all proposals.

OTHER TAX PLANS ADVOCATED—Lawmakers have proposed numerous methods for raising additional tax money.

Rep. W. W. Glass of Jacksonville suggests a constitutional amendment authorizing a one per cent levy on the gross income of all businesses. He estimated it would bring in \$100,000,000 a year.

A 10 per cent tax on the gross receipts of trading stamp firms was suggested by Rep. Henry A. Fletcher of Luling.

A graduated levy on gross income at the wholesale level and on income from personal services — for an estimated \$30,000,000 yearly — was put forward by Rep. Lloyd Guffey of El Campo.

Rep. Marshall O. Bell of San Antonio took the opposite approach by proposing a constitutional amendment that would prohibit either a state income or payroll tax.

Raciest suggestion came from Rep. V. E. (Red) Berry of San Antonio, who, as he promised in his campaign, introduced a bill to legalize horse racing and parimutuel betting and to levy a tax on the track proceeds.

As bills dropped into the hopper, State Treasurer Jesse James announced that the general revenue fund deficit has risen to \$95,381,122.

SAVINGS SOUGHT—Legislature is also considering proposals aimed at cutting expenses.

Texas Research League, reporting on a study made at the request of the Legislature, made 19 recommendations for reducing the cost of collecting taxes.

Rep. Dick Cory of Victoria has proposed a bill that would set up a commission to study the agencies of state government with a view to eliminate duplication and bringing about maximum economy and efficiency. It has been dubbed the "Little Hoover Commission."

LOAN CONTROLS URGED—Drive to enact loan company regulations got new push when the State Supreme Court made final its ruling that the "certificate plan" for loans is not legal.

Under this plan a borrower had to buy an investment certificate from the loan firm and pay for the certificate as well as pay off the loan.

Attorney Gen. Will Wilson said it is urgent that the Legislature set up a guide by which loan companies can operate legitimately. "Several lawmakers have announced plans to sponsor such bills. One would allow for total charges (interest plus other changes). 3 per cent per month on the unpaid balance of the loan."

SHORT SNORTS—Sen. Jarrard Secret of Temple is back with his proposal for "flexible rating" of automobile insurance rates. It would allow individual companies to set up their own rating plans rather than following uniform rates set by the State Board of Insurance.

WASHINGTON, D. C.—Who's Calling Whom What?

IT SEEMS WE ARE BECOMING a Country of labels and slogans. Perhaps we are depending on someone else to do our thinking for us. There are a number of organizations which will furnish our opinions. There are plenty of them to choose from. One now popular is Americans for Constitutional Action. They decide which Congressman and which Senator is "liberal" or "conservative." They decide whether he follows the constitution or not when he votes on the numerous Bills in the Congress. Although Courts are established for the purpose, and ablest lawyers disagree, the experts of this organization can come to a definite conclusion of what is and is not constitutional, without qualification.

IN 1957 AND 1959 the House of Representatives had before it a measure known as H. R. Judge Howard Smith of Virginia. This Bill is commonly known as the States' Right Bill. It would limit the power of the United States Supreme Court. It reached the heart of the preservation of constitutional Government. A New York Republican introduced an Amendment to the measure which would have had the effect of rendering it useless. The same Republican today is a leader in opposing Judge Smith's efforts to keep control of the Rules Committee, of which he is Chairman. The A.C.A. rates this Republican six points above Judge Smith as a Conservative.

ONE HUNDRED REPUBLICANS WERE SO rated before they got to a single Democrat. The thought occurs to many that the first qualification of a Conservative is to be a Republican. The next question arises: Do they apply the same yardstick to Weatherford, Snyder and all places between, as they do to New York, Chicago and Los Angeles? Or is a person one thing in one place and something else in another? Is it liberalism to support water and soil conservation—to protect resources, which would insure that small towns in the West will be able to survive, and our Nation able to feed our millions in the future? (To do so has been called "pork

county school superintendent abolished, is back for the same purpose. Corse says eliminating the county school superintendent in counties with no county schools would save the state \$711,000.

A bill to allow rural electric cooperatives to continue serving an area after it has been annexed by a city has been introduced by Senators Culp Krueger and Charles Herring in the Senate and by Rep. Alonzo Jamison Jr. in the House. Texas' 1961 state highway maps, full color and packed with information, are off the press. barreling"). Is it "conservatism" to support the huge subsidies paid to the shipbuilders—both for the construction of ships and for their operation guaranteeing a fixed sum of yearly profits—supposedly to have strong merchant fleet to deliver supplies overseas as we were going to fight the same kind of war as World War I and II? The fact is, however, that a third world war could be over before a ship could cast off its moorings and leave port.

ANOTHER ORGANIZATION KNOWN AS AMERICANS for Democratic Action (A.D.A.) also claims non-partisan sentiment. They are also ready with labels from their own ivory towers. Seemingly they are the counterpart (or vice versa) of A.C.A.

WE USUALLY READ AND BELIEVE what we want to hear. To form your own opinions, we could ask or write our Congressman and Senators as to their stand on specific issues. Your Congressman will tell you how he has voted on all issues and his stand on those to be considered. From our own information, we can form our own opinions. It will not be necessary to pay a fee to have someone else tell us what our opinions are or that label to stick on.

WHO IS WHAT, AND HOW MUCH, and is there anything in between?

H-SU High School Debate Tourney Set February 17-18

ABILENE — Hardin-Simmons University's 1961 high school debate tournament has been scheduled for Feb. 17-18, according to Dr. DeWitte Holland, director of forensics at the university.

It will be an open tourney and any West Texas or Central Texas high school may send contestants, Dr. Holland said. Invitations have been mailed to all schools known to have teams, but any coach who failed to receive entry blanks may secure them by writing Dr. Holland.

In addition to debate, contests will be held in five individual events — oratory, extemporaneous speaking, poetry reading, declamation and Bible reading. Preliminary and elimination rounds are planned for all events.

Debate will be on the national high school topic, "Resolved: That the United Nations Should be Significantly Strengthened."

There will be a sweepstakes trophy for the school compiling the most points in all events, first place trophies for both boys' and girls' debate, and first and second place medals in all events, Dr. Holland said.

Competition in the individual events will be held the afternoon of Friday, Feb. 17. Debate will start Friday evening, with eliminations set for Saturday morning and finals Saturday afternoon.

LEON THURMAN REPORTS ON THIRD WEEK OF LEGISLATURE

The Legislature is in its third week with still no committee work done toward the passage of any bills.

The Speaker has indicated that he might have the committees appointed and notified on this date; however, the information is that it will be Monday, January 30th before the committee assignments will be out, and it will be impossible to pass any legislation before the same has been heard before a committee.

There have been some 250 bills introduced in the House, and several of them will be very hotly contested and very controversial. Among these are one to have the Insurance Commission to not take into consideration certain traffic tickets to compute the premium of policy, which we agree that there should be some consideration given to certain types of traffic tickets. As the bill has not been placed on my desk, we are not familiar with all the details of it and will have to give it some consideration.

In the bill of the Flexible Rating Plan, which would allow the insurance to set their own rate and write their own policy, at first glance this sounds like a good piece of legislation, but it should be remembered that anyone buying insurance under this bill would not know what coverage they have without reading all the small, fine print in the policy. In other words, we think there should be some organization that has the leeway and fix some requirements as to the minimum requirements that should be included in any policy. Without some control, the companies could issue a policy and change it, and maybe there would be no coverage or liability under the policy for the carriers. This could result in a very dangerous situation.

There have been some 94 bills introduced in the Senate, and they have started their

committee hearings. Possible next week we will have more news for the people of our District.

Of course, one bill we are vitally interested in is the Redistricting Bill by Cotton Weatherford. It seems that the cities are gaining, and the rural areas are losing; therefore we do not know at the present time what the situation will be in our district.

We have introduced H. R. 286, which will make it unlawful for dressing in religious garb or wearing any religious insignia to teach in public schools. We believe that this is a must to conserve our system of Church and State.

As the Constitution and the Courts have held that anyone should not teach the Bible in public schools; therefore in this connection, we believe that no one should be dressed in their religious clothing while standing before the class, and we feel that this would guard, and be in keeping with, our Constitution. We would like for the people of our District to let us know if they favor this type of legislation. We know that it will be very controversial and will be very hard to pass.

We think it is very interesting to serve in the Legislature and consider it an honor to represent the people of the 85th District, and we would like to ask if there is anything they need from the Legislature or the Capitol, as we are here to serve in any capacity.

Clinton Gene Wheat, son of Mr. and Mrs. Darrell Wheat of Odessa, returned to his home last week after spending two months with his grandparents, Mr. and Mrs. W. C. Hargrove. Clinton suffered a broken leg while visiting here during the Thanksgiving holidays and he and his mother have been here since that time. His cast has been removed and he is doing fine.

Helen took a written test on December 6, 1960, along with nearly 400,000 other senior girls in high schools across the nation—a test of "homemaking knowledge and attitudes." The girl who scores highest in each school receives an award pin, manufactured by Jostens and representing the slogan, "Home is where the heart is." Helen was awarded her pin by her homemaking teacher, Mrs. V. R. Leverett before the girls in high school and another teacher, Mrs. C. Klump, on Monday, Jan. 23. ACTION NEEDED TO HALT HIGH DEATH TOLL ON STATE'S ROADS

SELF-PRESERVATION — a fundamental law of nature. But what happens to it when you slide behind the wheel of your automobile? This is the question posed by J. O. Musick, General Manager of the Texas Safety Association.

One would have to question the validity of this "basic urge"

high honors and 14 honors.

She was a member of the Alpha Chi English Honor Society and the Sigma Tau Delta National Honor Society. She did her student practice teaching in the Hamlin Public School.

She is now employed at Nunley Plumbing and Builders' Supply.

Attending the graduation ceremony was her husband, Dewey Nunley, Rev. and Mrs. Joe Norton, and E. D. Nunley, all of Hamlin; her brother, John Norton of Oklahoma University, Oklahoma City.

Mrs. Nunley, daughter of Mr. and Mrs. Joe S. Norton, 321 N.W. Ave. J, received the bachelor of arts degree in English.

when, according to Mr. Musick, we are killing upwards of 38,000 Americans a year—85 percent of this figure representing human error.

The cost of accident in terms of lives and suffering is obvious. But we are also literally robbing ourselves blind in terms of dollars, and here the bite is directly the result of how strong this urge of self-preservation really is: When claim costs go up rates must follow.

Where does it all stop? The answer may come with public recognition that lip service to safety campaigns, slogans and platitudes won't do the job—a job that will require such action as: Overhauling of our Texas Driver's Licensing Laws; strengthening our highway patrol force to meet minimum standards of other states with similar population growth and road conditions; and a "No-fix-No-favor" crackdown on speeders.

In the words of Governor Price Daniel, "The legislature has the best opportunity in years to help reduce the toll

from death by automobile in Texas to an absolute minimum within the next few years."

Have you talked to your legislator yet?

Ask Amy

BY AMY ADAMS

DON'T GRIN AND BEAR IT. SPEAK UP!

Dear Amy:

We live in a neighborhood with few children the age of mine. He is 4. A neighbor has a boy, also 4, who in many ways is a bully, and my child has taken much abuse. This bothers me, however, I feel he must learn to cope with this on his own as all through life he will run into this.

One habit though I find particularly revolting is that of spitting on my children. I can stand to see them pushed and hit but not spit upon.

His mother is a fine woman, aware of his shortcomings, and whose older children are very good. She admits she is at a loss to handle this boy (I have talked to him to no avail) but resents the slightest hint of outside criticism and is very sensitive about it. I don't wish to cause any hard feelings. Should I grin and bear it hoping it will end or mention it to her in some gentle way and hope not to cause hurt feelings?

Dear Mrs. D. K.:

Yes, of course mention it to the child's mother. She would be more offended if the neighborhood children refused to play with him. Many children of his age pick up this nasty habit, but it takes a parent's explaining, reminding and discipline in that order for them to stop.

My Sweet Amy:

I'm going to tell you who I am: My name is Frisco (Francisco). I'm 23 years old, Spanish and I live in the south of Spain (Cartagena). Do you know me? No, of course!

I have read the nice questions of the people in an American newspaper and I'm an admirer of you, but I think that those are not a difficult questions as this one: Are you married? If you are not, what can you do if same one is blindly love-sick by you and ask you to get married with him. And also if it's Spanish of course.

Please do not think that I'm crazy. I'm working like an interpreter here in Spain and I read some of your answers to the people and also your photo. Ever

since I begin to fall for you, I can't forget your smiling face. I don't want to know who are you or what are you doing. What I want to know is: If you are married?

Sweet Amy, I swear you do not want to joke with me. This is certain. Please, I pray you to forgive me if you are angry by this letter but if you are not and you want to answer me, I'll be very grateful to you.

Frisco

Dear Frisco:

Your offer is very sweet, I'm flattered beyond doubt But you're a little late, Senor My husband beat you out!

Dear Amy:

I read your recipe for keeping the man of the house happy. I also have a recipe which can be used—not only for the man you marry—but for everyone you meet. You may print it in your column if you like.

Take two heaping cups of PATIENCE

One heartful of LOVE

Two handfuls of GENEROSITY

A dash of LAUGHTER

One headful of UNDERSTANDING

Sprinkle generously with KINDNESS

Add plenty of FAITH and mix well

Spread over a period of a lifetime and

Serve everybody you meet.

Mrs. A. Baister

PERSONAL to Patricia:

A boy's first car is like his first love. It takes a little while until he gets it out of his system. Be thankful your rival has four wheels . . . not two legs!

PERSONAL to D.M.:

Sorry I cannot print your letter. If you care to send me your name and address, I'll tell you why.

Please address all letters to: AMY ADAMS c/o THIS NEWSPAPER For a personal reply enclose a self-addressed, stamped envelope.

2 Million Women to Join Mothers' March To Support March of Dimes Health Goals

The Golden Key of Hope—a new symbol for a new decade of medical progress against crippling diseases—is the badge some two million volunteers will proudly wear in the 1961 Mothers' March climaxing the New March of Dimes.

Symbolizing the need for research to unlock the mysteries of such major crippers as birth defects and arthritis, the Golden Key also represents the vaccine "keys" to polio prevention perfected through research made possible by the March of Dimes.

In most communities, the Mothers' March will take place the evening or afternoon of Tuesday, Jan. 31. Volunteers identified by the Golden Key badge will call on their neighbors for support in the campaign against tragedies which affect one in every four American families.

Each of the estimated 40 million households visited in the Mothers' March will receive valuable health information cards including Do's and Don'ts for expectant mothers, Arthritis Warnings, and Vaccination Alerts for the almost 85,000,000 Americans still not protected against polio.

Beclouded by centuries of superstition, birth defects are considered by medical authorities to be the nation's most serious child health problem. Yet the fields of cause and prevention were largely unexplored until funds from the March of Dimes began to make intensive research possible. Pointers derived from early research are included on the cards to be distributed by Mothers' March volunteers.

The cards are also designed to bring home the realization that more than 11,000,000 Amer-

Glimpsed through a keyhole, three small victims of dread crippling diseases hold the Golden Key of Hope, 1961 Mothers' March symbol of March of Dimes-supported efforts to unlock the mysteries of their afflictions. They are, left to right, Gail Berg, 3½ years, arthritis patient; Allen Markowitz, 5, polio victim; and Rosalie Porretto, 7, born with a birth defect, all of New York City.

icans suffer from some form of crippling arthritis. Many victims, grasping at straws, pay out a total of more than \$250,000,000 annually on quack "cures." The fact is that the causes of arthritis are largely unknown. There is no known cure, no known preventive. But research to find the key is being rapidly advanced through March of Dimes support. To improve treatment and rehabilitation of those crippled by birth defects and arthritis, a network of clinical study centers is being established by means of March of Dimes funds. FAIRVIEW NEWS--

By MRS. ELMER JOINER

The sun is a welcome sight this Monday morning, let's hope it continues to shine for a few days, and the blizzard of last week will be past history. This was the worst spell of the season, making all of the other bad weather we have had this winter look mild. The ground is so wet that after it thaws the dirt roads are almost impassable.

Church was called off Sunday night as the grounds were so wet and very few people could get there for the muddy roads. A fairly good crowd came out Sunday morning, despite the cold.

Not a thing was done at the church house last week as the weather was too bad, the new paint job will have to wait un-

til the weather is right for it. Mr. and Mrs. Buck Ritchie of Ozona, spent from Tuesday until Sunday of last week with her folks, Connie, Delia and Maude Drake.

Linda Goodwin went home with Teresa Gabriel Sunday and spent the day.

Mr. and Mrs. Winson Gray ate lunch with Mr. and Mrs. Fred Rosenbaum Sunday.

Mr. and Mrs. Woodrow Goodwin, and Mrs. Doyle Combs and children went to Abilene last Thursday.

his mother, Mrs. J. R. Kee, all of Lubbock, spent Saturday night with Mr. and Mrs. Elmer Joiner.

Mr. and Mrs. R. M. Jones went to Sweetwater Friday to visit with their son, Bill Jones

and family. They were happy to find little Jimmy doing very well so far this winter.

Rev. and Mrs. Doyle Combs spent Sunday with the Ralph Riddies.

Mr. and Mrs. Woodrow Goodwin and Linda, attended a banquet Saturday night for the counselors and sponsors of the campfire girls. Linda's group presented the program.

George Wainwright had surgery last Saturday morning, at the Stamford Hospital. At the last report he was doing well, he will be sick for several days after surgery, but the doctors are very confident they have found his trouble and he will soon be well again.

Mr. and Mrs. R. M. Jones and Mr. and Mrs. Elmer Joiner went to the hospital Saturday to see the Wainwrights.

Mr. and Mrs. Woodrow Goodwin and Linda visited with her sister, Mr. and Mrs. Elmer

Care With Fire Necessary

Winter woods are dry and easy to catch fire, so take the proper precautions to prevent fire.

Hold burnt matches until cool, then break them. Shred your cigarette butts, as smokers are taught to do. Douse your campfire thoroughly with water—then inspect it carefully before leaving.

On Cooking Eels

Eels make great eating—once you get over the idea that they are kin to snakes.

You'll be won over the first time if you prepare them this way: Skin eel with pliers, then cut into inch-thick chunks (as you slice bread). Fry until meat is flaky and white.

Legend has it that cooked eel meat will turn raw again if laid aside to cool. Experiment proves this to be at least par-

Joiner, Saturday night, after the banquet.

The cold weather didn't stop the 42 party Friday night at the home of Mr. and Mrs. Flavel Holmes. Six couples played and as usual a good time was enjoyed by all present.

Quiet as Jack Robinson

Here's a quick way to skin a rabbit for the pot. Slit across rabbit's back with a sharp knife. Grab hold of each side of slit and pull.

The skin comes off as easily as you skin a banana. Cut legs off at lower joint and your rabbit is ready.

Spotting Downed Birds

When you down a bird in brush or high grass and go to the place where you think it fell, and it isn't there, drop a white handkerchief at the spot.

Then hunt from there, in circles, until you locate your kill. Otherwise, you are apt to wander away from the original area.

Scope Has Many Advantages

Open sight shooting has many advocates. But many good bucks are missed because the hunter didn't have a scope sight on his gun when needed. This is especially true of dusk shooting. It is then that a scope can tell you if the deer you see is a buck, and just where to place a killing shot.

Pump Gun Caution

Beginners should remember:

never to hold down the trigger of a pump gun when working the action, as the gun is liable to fire accidentally. Reload carefully until familiar with gun.

Choice Improves Shooting

By using an adjustable choke on your single barrel shotgun you can increase your kills greatly.

This isn't an ad for any special brand of choke, but is a worthwhile tip on how to increase your shooting skill.

Don't Overfeed Hunting Dog

A lean dog makes a good hunter.

Don't feed your dog all his appetite calls for, or he'll get sluggish and hunt poorly. Better for his ribs to show a little—it's a sign he's in top shape.

Fisher Junior Livestock Show Draws Big Crowd

The 1961 Fisher County 4-H and FFA Junior Livestock Show held recently had the largest attendance of several years. Also the show had more entries than any in a number of years. The calf division being doubled in size. Another interesting feature noted was over-all better quality in stock exhibited.

Jim Warden of Swift & Co., Abilene and Oris Reynolds, co-owner of the Abilene Livestock Auction were judges for the show.

Driving is NOT a right --- You Can Be RULED OFF THE ROAD

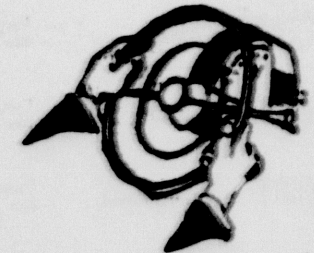

When you put the plates on your car and the driver's license in your wallet, you have met your state's requirements to drive. Without these, your time on the highway would be short-lived. It is the Motor Vehicle Department's way of saying, "So far as we can tell, you should be permitted to drive."

But from then on it is up to you. Respect the law and the rules of the road, drive so as not to endanger your life or the lives of others, and you may continue to drive. But—

Those licenses are not a right—they are merely *qualified permission*. They do not say you can weave over the highways intoxicated; that you can drive at dangerous speeds; or that you can commit *any* act that may endanger the public safety. You can't get away with it. Continued bad driving habits, sooner or later, will rule you off the road.

In one year 600,000 drivers had their licenses suspended or revoked—every third one for intoxication. Speeding and recklessness were also high on the list.

Remember—driving is not a right; it is a license which if abused can be withdrawn. Respect it and continue to drive—safely, sanely.

GONZALES REHABILITATION CENTER IN NEED OF HELP

Gonzales—An "over-supply" of words as well as a shortage of dollars is plaguing The Gonzales Rehabilitation Center of Gonzales Warm Springs Foundation these days. Walter H. Richter, executive director, observed this week.

"Nearly anyone you talk to about this Center will inform you that the State is taking over, or that the Methodist Church is taking it over, or that we are on the verge of closing down," Richter said.

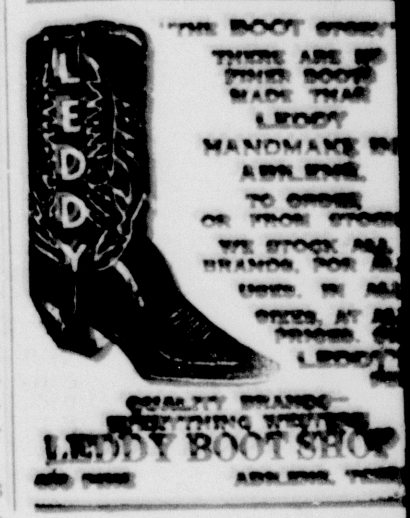

"To my best knowledge none of these eventualities is about to take place—except that, if these rumors keep being repeated, our backers will be inclined more and more to withdraw their support. Then we might have to throw in the towel," he added ruefully.

Richter pointed out that he had knowledge of donations, some of them rather sizeable, being withheld because the donors did not wish "to invest in a losing proposition."

"The truth is that every dollar contributed will be expended on the care of severely disabled Texans whether we are in business two weeks or two centuries," he stated. "Only when the donation is not made and the care is not provided is it truly a losing proposition—and the only real losers are our handicapped citizens."

Richter acknowledged it is true that the Center's management is constantly seeking ways and means to strengthen its financial position. "We welcome an alignment with some organization or even the State if this would assure continuity for this vital and badly needed work but at the moment there is not even a slight probability of this taking place," he stated.

County Hale-Aikin Committee have recommended a state schedule with a \$4,000 minimum salary and \$6,500 maximum salary for teachers.

Stamp Company Designs New Book

A more compact Sandy Savers Book now is available to Gold Bond Stamp Savers. Gordon A. Pearson, Dallas Division Manager of the trading stamp firm, announced today. Pages in the new Savers Book now hold 30 stamps instead of 25 and there are only 50 pages to fill, said Pearson.

"We wanted to make the Savers book less bulky so that it would fit into the housewife's purse more easily," he said.

Just for the records, he continued, the book contains 17 per cent less bulk.

In addition to being lighter and less bulky, the book also sports a new cover which more clearly identifies the book as a Gold Bond Savers Book.

The new books are available

at all Gold Bond merchants in this area.

ELVIS PRESLEY STARS IN HIT COMING TO ROGUE THEATRE

Race war, pitting brother against brother, neighbor against neighbor, sparking the conflicts which torture a half-breed boy... these are the elements in a new, action-packed "singing" production, "Flaming Star," 20th Century-Fox, CinemaScope De Luxe Color drama of old Texas, starring Elvis Presley, Barbara Eden, Steve Forrest, Dolores Del Rio and opening Sunday at the Rogue Theatre.

"Flaming Star" is the tragic saga of a half-Indian youth, Pacer (Elvis Presley) son of a white man, Burton (John McIntyre) and Neddy, a full-blooded Indian beauty (Dolores Del Rio). When the Indians launched a series of massacres on white settlers in Texas, the wrath of the entire town turns upon the Burton family and especially on young Pacer. Even Pacer's half-brother, Clint, (Steve Forrest) feels prejudice and the cooling of trust begin in his sweetheart Roz Pierce (Barbara Eden.)

Danger comes to a fever-pitch when the Indians ask the Burton family to take sides with them against the white

community. Pacer and his mother try to resolve the antagonisms, but know all too soon that understanding between the two warring races will come only through some great human tragedy on both sides. An unexpected and highly-charged climax brings to "Flaming Star" a conclusion that is unique in the tradition of film Westerns, carrying into full play the dramatic skills of the "new" Presley.

Presley sings four new songs in his inimitable and sensation-making style: "Flaming Star," "Bright Eyes," "Summer Kisses—Winter Tears," and "A Cane and a High Starched Collar." Apart from this, he reveals himself as an actor, with fresh depth and understanding in the difficult role of the half-breed boy tortured by allegiance to two warring people.

Still working past retirement age? "Would be a good bet to file your social security claim anyway; see your social security office.

The beginning minimum salary for a teacher with a degree in Texas is \$3,204.
